

Privacy Policy – gamering.online

Last updated: 21 October 2026

1. Who we are and what this policy covers

This Privacy Policy explains how Gamering LLC ("Gamering", "we", "us") handles personal data collected through the website gamering.online (the "Website").

Gamering LLC is a limited liability company registered in the Republic of Uzbekistan and a resident of IT Park Uzbekistan. Registered address: 147, 10-kichik Noksiya massiv, Bobur mahalla, Chirchik, Tashkent Region, Republic of Uzbekistan. State registration No. 3116394 of 9 February 2026. Tax ID (INN): 312 782 635. Contact e-mail for privacy matters: info@gamering.online.

The Website is an informational business page. It has no user accounts, no online store and no payment functions. The only way the Website collects personal data is the contact form through which prospective partners can reach us. This policy covers that form and the limited technical data generated when you visit the Website. It does not cover data we process under separate contracts with our business partners; those are governed by the relevant agreement.

2. What data we collect

Contact form. When you submit the form, we collect only what you enter: your name, company name, e-mail address and the text of your message, plus any other details you choose to include. Providing this data is voluntary, but without an e-mail address we cannot reply to you.

Technical data. Like any website, our hosting infrastructure automatically records basic connection data: your IP address, browser type and version, operating system, referring page, pages viewed, and the date and time of the visit. This data is kept in standard server logs for security and troubleshooting and is not combined with the contact form data to identify you.

We do not collect special categories of personal data (health, political views, biometrics and similar), and we ask that you do not include such information in your message.

We do not knowingly collect data from persons under 18. The Website and the contact form are intended for business representatives only.

3. Why we use your data and on what basis

We use contact form data for one purpose: to respond to your enquiry and, if both sides wish, to continue the business discussion that follows. We do not use it for marketing newsletters, profiling or automated decision-making, and we do not sell it.

We use technical data to keep the Website available and secure, to detect abuse, and to fix technical problems.

Our processing is governed by the Law of the Republic of Uzbekistan "On Personal Data" (No. ZRU-547 of 2 July 2019). Under that law we process contact form data on the basis of your consent, which you give by submitting the form, and technical data on the basis of our legitimate need to operate the Website securely.

If you contact us from the European Economic Area or the United Kingdom, the GDPR or UK GDPR may also apply. In that case our legal bases are performance of pre-contractual steps taken at your request (Art. 6(1)(b) GDPR) for the enquiry itself, and our legitimate interest in running a secure website (Art. 6(1)(f) GDPR) for technical data.

4. Who we share data with and international transfers

We do not sell, rent or trade your personal data. We share it only with:

- Our hosting provider, Servercore (servercore.com), whose servers for the Website are located in Uzbekistan. The Website and our mail server both run on this infrastructure, so contact form submissions are delivered to our own mail server and do not pass through a third-party e-mail service. Servercore processes data only on our instructions and under a contract that requires it to protect that data.
- Public authorities, courts or regulators, where the law requires us to disclose it.
- Professional advisers (lawyers, accountants) bound by confidentiality, where needed to handle a legal matter.

Gamering operates from Uzbekistan, and the providers named above may store data outside the country you contact us from. Where personal data of Uzbekistan citizens is involved, we process and store it in compliance with the localisation requirements of the Law "On Personal Data". Where EEA or UK data is transferred outside those territories, we rely on the safeguards available under the GDPR, such as standard contractual clauses, or on your explicit consent given when you submit the form.

5. How long we keep your data

Contact form submissions are kept for as long as needed to handle your enquiry and the discussion that follows, and no longer than 24 months after our last exchange with you, unless a contract is concluded (in which case the relevant agreement governs retention) or a legal obligation requires longer storage.

Server logs containing technical data are kept for no more than 12 months and are then deleted or anonymised.

You can ask us to delete your contact form data earlier at any time (see Section 7).

6. How we protect your data

The Website is served over HTTPS, so data you enter in the contact form is encrypted in transit. Access to submitted enquiries is limited to the Gamering staff who handle partner communications, and our hosting and e-mail providers apply their own access controls and security measures.

No method of transmission or storage is completely secure. If we become aware of a breach that affects your personal data, we will notify you and the competent authority where the law requires it.

7. Your rights

You have the right to:

- ask whether we hold personal data about you and receive a copy of it;
- have inaccurate or incomplete data corrected;
- have your data deleted, where we no longer need it or you withdraw consent;
- restrict or object to our processing in the circumstances provided by law;
- withdraw consent at any time, without affecting the lawfulness of processing before withdrawal;
- lodge a complaint with a supervisory authority. In Uzbekistan this is the State Personalisation Centre under the Cabinet of Ministers (the authorised body for personal data). If you are in the EEA or the UK, you may also complain to your local data protection authority.

To exercise any of these rights, write to info@gamering.online. We will respond within the period required by applicable law, and in any case within 30 days. We may ask you to confirm your identity before acting on a request.

8. Cookies

The Website uses only the technically necessary cookies required for it to function (for example, to protect the contact form against spam). We do not use advertising, analytics or tracking cookies. If this changes, we will update this policy and, where required, ask for your consent before setting such cookies.

9. Links to other websites

The Website may contain links to third-party websites. We are not responsible for their content or privacy practices, and this policy does not apply to them.

10. Changes to this policy

We may update this policy from time to time. The current version is always published on the Website with the date of the last update shown at the top. Material changes will be highlighted on this page.
